**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

## DETAIL OFFICE ACTION

1. This office action is in response to the amendment filed on November 21, 2007.

### ***Restriction***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7, 39, 11-19 and 40, drawn to a method of controlling a vehicle having an adaptive cruise control, classified in class 701, subclass 93.

- II. Claims 20-32, drawn to a method of controlling vehicle based on the zone area, classified in class 701, subclass 300.

- III. Claims 8-10 and 33-37, drawn to a method of controlling vehicle using the brake control system, classified in class 701, subclass 70.

- IV. Claims 38, drawn to a method of controlling vehicle in a turn using the estimated radius of curvature of the vehicle path, classified in class 701, subclass 72.

3. The inventions are distinct, each from the other because the inventions I, II, III and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions. Group I, refers to a method of controlling a vehicle having an adaptive cruise control to determine whether the vehicle is in a turn or not; while Group II describes a method of controlling vehicle based on whether the vehicle is in a specific zone or not, Group III describes a method of controlling vehicle using the brake

Art Unit: 3661

control system. i.e. ignoring the object for braking purpose if the object is determined to be stationary and also not to be in the vehicle's path during a turn, and Group IV discloses a method of controlling vehicle in a turn using a combination of the estimated radius of curvature of the vehicle path and the vehicle speed.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Tan Nguyen, whose telephone number is (571) 272-6966. The examiner can normally be reached on Monday-Thursday from 5:30 AM-4:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Black, can be reached on (571) 272-6956.

Any response to this action should be mailed to:

Commissioner of Patents and Trademarks  
Washington, D.C. 20231

or faxed to the central fax: (571) 273-8300.
